

Google Maps Lead Scraper - Project Status

Project: Google Maps Lead Scraper Chrome Extension **Owner:** Matt (Quenito Enterprises) **Last Updated:** February 1, 2026

Current Status:  **ALL PRE-LAUNCH FEATURES COMPLETE**

All core functionality (Phase 1 & 2) plus all 6 pre-launch enhancement features are complete and ready for launch.

Build Progress

Phase	Description	Status
Phase 1	Core scraping (business data extraction)	 Complete
Phase 2	Email extraction from business websites	 Complete
Phase 3	Pre-launch features & UI polish	 Complete
Phase 4	Trial system implementation	 To build
Phase 5	Gumroad listing & launch	 Not started

Features Working

Core Features (Phase 1 & 2)

-  Extract business listings from Google Maps search results
-  Auto-scroll to load more results (up to ~120 per search)
-  Capture: name, rating, review count, category, address, phone, website, Google Maps URL
-  Email extraction from business websites (homepage + contact pages)
-  Multiple email capture per business
-  Progress indicator in popup UI
-  CSV export functionality
-  Works globally (US, UK, Canada, Australia tested)

Pre-Launch Features (Phase 3) - All Complete

Feature	Description	Status
Auto-Extract Emails	Checkbox to automatically extract emails after scraping completes	✓ Complete
Duplicate Detection	Tracks scraped URLs, skips duplicates, shows count, clear history button	✓ Complete
Search History	Collapsible log of past searches with query, date, leads/emails count	✓ Complete
Custom Field Selection	Choose which fields to include in CSV export	✓ Complete
Browser Notifications	Desktop notifications when scraping/email extraction completes	✓ Complete
Google Sheets Export	OAuth2 integration to export directly to Google Sheets (Pro Tier)	✓ Complete

Additional Polish

- ✓ Extract Emails button greys out when auto-extract is enabled (prevents confusion)
- ✓ Tooltip on auto-extract checkbox explaining manual control option
- ✓ Google Sheets modal with "Create new" / "Append to last" options
- ✓ Toggle notifications setting persists across sessions
- ✓ All user preferences saved to chrome.storage.local
- ✓ Clear Results button to reset UI after exporting
- ✓ Improved scroll detection (waits for Google Maps loading spinner)
- ✓ End-of-results detection ("You've reached the end of the list")

Google Sheets Pro Features

- ✓ Search query included in spreadsheet title (e.g., Google Maps Leads "plumber penrith" - 1/30/2026)
- ✓ Maps URL column shows clickable business names instead of raw URLs (HYPERLINK formula)
- ✓ One-click access to Google Maps listing from spreadsheet

Trial System (To Implement)

Model: Option A - Limited Free Trial

Free Trial Includes:

- 3 full scrapes with complete email extraction
- CSV export
- All features unlocked during trial

After Trial Expires:

- Extension shows "Trial ended" message
- Prompts user to purchase on Gumroad
- No functionality until license key entered

Implementation Notes

Trial Tracking:

- Store `trialScrapesRemaining` in `chrome.storage.local` (default: 3)
- Decrement after each successful scrape + email extraction
- When reaches 0, lock the extension

License Validation:

- User purchases on Gumroad → receives license key
- Enter key in extension settings
- Validate against stored keys or simple checksum
- Unlock full unlimited access

Competitive Analysis

Feature Comparison vs Competitors

Feature	Maps Lead Scraper	Mike Powers (Gumroad)	GMaps Extractor	Outscraper	Map Lead Scraper
Email Extraction	✔ Built-in	✘ No	✔ Yes	✔ Yes (add-on)	✔ Yes
Duplicate Detection	✔ Yes	✘ No	✘ No	✔ Yes	✘ No
Search History	✔ Yes	✘ No	✘ No	✘ No	✘ No
Custom Field Selection	✔ Yes	✘ No	✘ No	✔ Yes	✘ No
Google Sheets Export	✔ Direct	✘ No	✘ No	✔ Yes	✘ No

Feature	Maps Lead Scraper	Mike Powers (Gumroad)	GMaps Extractor	Outscraper	Map Lead Scraper
Browser Notifications	✔ Yes	✗ No	✗ No	✗ No	✗ No
Free Lifetime Updates	✔ Yes	✔ Yes	✗ Subscription	✗ Pay per use	✗ Subscription
Pricing Model	One-time	Pay what you want	Subscription	Pay per use	Subscription
Price	\$49-129	\$0+	~\$15-50/mo	Variable	~\$20-50/mo

Key Differentiators

1. **Only Chrome extension with built-in duplicate detection** - Competitors either don't have it or it's only in cloud-based tools
2. **Search history is unique** - No other Chrome extension scraper tracks past searches
3. **Google Sheets direct export in a Chrome extension** - Others require cloud tools or manual CSV import
4. **One-time purchase with free updates** - No subscription fatigue, competitors mostly charge monthly
5. **Browser notifications** - No competitor mentions this feature
6. **Clickable hyperlinks in Google Sheets** - Business names link directly to Maps listings

Test Results (January 29-30, 2026)

Global Testing Summary

Search Query	Location	Leads	Emails	Hit Rate
Plumbers	New Jersey, USA	120	53	44%
Car Mechanics	Manhattan, NY, USA	89	28	31%
Electricians	Leeds, UK	120	63	53%
Electricians	Ontario, Canada	120	74	62%
Real Estate Agents	Manchester, UK	116	69	59%
Electricians	Glen Waverley, AU	120	71	59%
Real Estate Agents	Fortitude Valley, Brisbane, AU	118	75	64%
Car Mechanics	Hurstville, NSW, AU	62	18	29%

Search Query	Location	Leads	Emails	Hit Rate
Plumbers	Sydney, AU	62	45-47	~73%
Plumbers	Logan, AU	118	~50	~42%
Plumbers	Penrith, AU	50	15	30%
Plumbers	Orange NSW, AU	50	~25	~50%

Insights

1. **Global compatibility confirmed** - Works identically across US, UK, Canada, Australia
2. **Email hit rates vary by industry:**
 - Real estate agents: 59-64% (highest - they want leads)
 - Electricians/Plumbers/Trades: 44-73% (solid)
 - Car mechanics: 29-31% (lower - many small shops lack websites)
3. **Volume:** Most searches return ~120 leads (scroll limit)
4. **Multi-email capture working:** Some businesses return 5-7 emails

Technical Stack

- **Type:** Chrome Extension (Manifest V3)
- **Language:** JavaScript (ES6 modules)
- **UI:** HTML/CSS popup
- **Storage:** chrome.storage.local (preferences, history, duplicate tracking)
- **Export:** CSV format + Google Sheets API v4
- **Auth:** Google OAuth2 via chrome.identity API
- **Notifications:** chrome.notifications API

Repository

- **GitHub:** github.com/quenito/google-maps-scraper
- **Branch:** main
- **Local path:** ~/projects/google-maps-scraper

Pricing Strategy

Tier	Price (USD)	Includes
Standard	\$49	Extension + CSV export + email extraction + all base features
Pro	\$79	+ Google Sheets integration + priority support

Free Trial: 3 full scrapes with email extraction (all features)

Target market: Global English-speaking (US, UK, Canada, Australia, etc.)

All paid tiers include: Auto-extract, duplicate detection, search history, custom fields, notifications, unlimited scrapes, free lifetime updates

Why No Source Code / Developer Tier

Decided against offering source code tier because:

- Risk of direct competition (buyer resells same product)
- Risk of knockoff products fragmenting the market
- No real benefit to us - agencies don't actually need source code

Future Tier: Agency (Post-Launch)

Once established, consider adding:

Tier	Price (USD)	Includes
Agency	\$199-299	5 license keys + priority support + early access to new features

Why Agency tier works:

- Gives agencies what they actually need (multiple installs)
- Doesn't expose source code / IP
- Higher ticket price with clear value proposition
- Natural upsell for Pro users who grow their team

Free Lifetime Updates Policy

What we offer:

Free Lifetime Updates - All purchases include free updates to keep the extension working with Google Maps changes. As long as we're maintaining this product, you'll get updates at no extra cost.

What "Free Updates" includes:

✓ Included (Free)

✗ Not Included

Bug fixes

Major new features (v2.0)

Google Maps compatibility fixes

New export integrations

Minor improvements & polish

Premium add-ons

Security patches

Done-for-you services

Why offer free updates:

1. **Necessary for product function** - Google changes their Maps DOM periodically. If the scraper breaks, we need to fix it or face refund requests and bad reviews.
2. **Customer expectation** - One-time purchase products are expected to keep working. Not offering updates would feel like bait-and-switch.
3. **Competitive standard** - Other Gumroad scrapers include updates. Not offering them would be a negative differentiator.
4. **Builds trust** - "Free lifetime updates" removes purchase hesitation and increases conversions.

Future upsell path (optional):

- Could release "v2.0" with major new features as a separate paid product
- Existing customers get loyalty discount (e.g., 50% off)
- Keeps v1 supported but incentivizes upgrade

Gumroad listing wording:

✓ **Free Lifetime Updates** - We keep it working, you keep generating leads.

Product Title

Maps Lead Scraper - Extract Google Maps Leads with Emails (Chrome Extension)

Tagline

One-click lead generation from Google Maps. Extract business data + emails. No subscription.

Description

Stop paying monthly fees for lead generation tools.

Maps Lead Scraper is a powerful Chrome extension that extracts business leads directly from Google Maps search results - including emails that competitors miss.

Perfect for:

- Sales teams building prospect lists
 - Marketing agencies finding local business clients
 - Recruiters sourcing company contacts
 - Real estate agents researching local businesses
 - Anyone who needs business leads fast
-

How It Works:

1. Search Google Maps (e.g., "plumbers in Chicago")
2. Click "Start Scraping"
3. Export to CSV or Google Sheets

That's it. No coding. No complex setup. No monthly fees.

What You Get:

Lead Data Extracted:

- Business name
- Phone number
- Email address (extracted from websites - our key feature!)
- Website URL
- Full address
- Rating & review count
- Google Maps link
- Business category

Powerful Features:

-  **Automatic Email Extraction** - Scans business websites for contact emails
-  **Duplicate Detection** - Never scrape the same business twice
-  **Search History** - Track all your past searches with lead counts
-  **Custom Export Fields** - Choose exactly which data to include

-  **Desktop Notifications** - Know when scraping is complete
 -  **Google Sheets Export (Pro)** - Direct export with clickable links
 -  **Free Lifetime Updates** - We keep it working, you keep generating leads
-

Works Globally:

Tested and working in:

-  United States
 -  United Kingdom
 -  Canada
 -  Australia
 - And anywhere Google Maps is available
-

Real Results:

Industry	Avg Leads/Search	Email Hit Rate
Real Estate Agents	115+	60-65%
Plumbers/Electricians	100+	45-70%
Restaurants/Cafes	120+	40-50%
Car Mechanics	80+	30-35%

Pricing:

Tier	Price	Best For
Standard	\$49	Individual users, CSV export
Pro	\$79	Teams, Google Sheets integration + priority support

 **Free Trial:** Try 3 full scrapes before you buy!

 **No Subscriptions. No Monthly Fees.**

Pay once, use forever. Unlike competitors charging \$20-50/month, you own this tool outright.

 **Free Lifetime Updates** - We keep the extension working with Google Maps changes at no extra cost.

? FAQ:

Is this legal? Yes. We only extract publicly available data from Google Maps listings and business websites.

Do I need technical skills? No. If you can use Google Maps, you can use this extension.

Will it work for my industry/location? Yes. Works for any business type in any location where Google Maps is available.

What about updates? All tiers include free lifetime updates. Google sometimes changes their site - we keep the extension working at no extra cost to you.

30-Day Money-Back Guarantee

Not happy? Get a full refund within 30 days. No questions asked.

Short Description (for Gumroad card)

Chrome extension that extracts business leads + emails from Google Maps. One-time purchase with free lifetime updates. No coding required.

Tags (for Gumroad)

google maps, lead generation, scraper, email extractor, chrome extension, b2b leads, sales tool, marketing tool, business data, web scraping

Sales Platform Strategy

Launch Platform: Gumroad

Why Gumroad for launch:

- Speed to market - can go live immediately, no approval wait
- Gumroad Discover marketplace provides organic traffic for new products
- Simpler setup, familiar to target audience
- Now handles sales tax automatically (as of Jan 2025)

Gumroad fees:

- 10% + \$0.50 per transaction (direct sales)
- 30% for sales through Discover marketplace

Future Migration: Lemon Squeezy

When to switch: Once hitting 50+ sales/month consistently

Why Lemon Squeezy later:

- Lower fees: 5% + \$0.50 per transaction (half the cut)
- Better checkout UI - creators report 2-3x higher conversion rates
- Stripe-backed (acquired 2024) - solid infrastructure
- Handles global VAT/sales tax

Fee comparison at scale:

Monthly Sales	Gumroad Fees	Lemon Squeezy Fees	Savings
20 × \$49	~\$108	~\$60	\$48/mo
50 × \$49	~\$270	~\$150	\$120/mo
100 × \$49	~\$540	~\$300	\$240/mo

Migration note: Lemon Squeezy offers migration support - export Gumroad data as CSV and they'll import within 3 days.

Next Steps

Remaining Before Launch

- ☒ Create extension icons (16x16, 48x48, 128x128) ☒ Done Jan 31
- ☒ Commit current working version to GitHub ☒ Done Jan 31
- ☐ Set up Gumroad seller account
- ☐ Create Gumroad product listing (use copy above)
- ☐ Implement trial system (brief ready)

Launch Prep

- ☐ Upload to Gumroad with listing copy (above)
- ☐ Record demo video (2-3 min showing the tool in action)
- ☐ Create product screenshots/GIFs

- ☐ Set up pricing tiers on Gumroad

Marketing (Post-Launch)

- ☐ Reddit posts: r/webscraping, r/entrepreneur, r/sales, r/leadgeneration
 - ☐ YouTube tutorial: "How to scrape Google Maps leads"
 - ☐ Indie Hackers: Build in public post
 - ☐ Twitter/X: Document journey
-

Revenue Targets

Timeframe	Target Sales	Revenue
Month 1	20 sales	~\$1,000
Month 3	50 sales	~\$2,750
Month 6	100+ sales	~\$6,000

Known Issues / Future Improvements

Minor Issues (Not blockers)

- Category field sometimes shows rating instead of category
- Occasional partial email captures (e.g., "lumbing@gmail.com")
- Sponsored listings may have tracking URLs

Future Features (Post-Launch v2.0+)

Feature	Description	Priority
Re-run past search	Click on search history item to re-run that exact search	Low
Export history	Export search history as CSV/JSON	Low
Filters	Filter scraped results by rating, review count, etc.	Medium
Email verification	Basic email format validation	Low
Multiple export formats	JSON, Excel (.xlsx) in addition to CSV	Low
Dark mode	Match system theme preference	Low

Notes

- Original Phase 1 brief: `google-maps-scraper-phase1-brief.md`
- Extension built using Claude Code in VS Code
- Development time: Phase 1+2 (~1 session), Phase 3 features (~1 session)
- Google Cloud Console project configured for OAuth2
- Trial system brief: `trial-system-feature-brief.md`
- Icons implementation brief: `icons-implementation-brief.md`

Last tested: January 30, 2026 **Features complete:** January 30, 2026 **Icons complete:** January 31, 2026 
GitHub commit: January 31, 2026  **Next milestone:** Gumroad setup + Trial system implementation
